H-PLUS® TIP OF-THE-ISSUE

Empathizing
Function Command: PLUS-PROFILE, PROFILE

Empathizing assists in clearly perceiving another on all levels. This increased sensitivity can lead to improved communication and ease in relating. Mark Carter, a *GATEWAY OUTREACH* Trainer based in Phoenix, Arizona, has taken this a giant step farther. He uses *Empathizing* with the intention of tapping into the state of being of individuals with admirable qualities and abilities (humor, intelligence, centeredness, healing talent, spirituality, etc.). The idea is to experience the essence of these capabilities, and more easily incorporate them. Says Mark of this innovative application, ".. .it works very well! Try it!"
